PURE MILK—a perfect food for all mankind. Scrupulous care is exercised from the time the cows are milked until the sealed bottles are delivered into your home.

CERTIFIED MILK costs a trifle more per quart than some other milks, but what are a few pennies per week as compared with the assurance that the milk your **CHILDREN** drink is absolutely sanitary? Ask your doctor.

New Design and Material.

It is really surprising to note that some of the effects shown this fall are really new. This beautiful gown is decidedly unlike any seen before.

The material is one of the striped velvets, showing a narrow stripe of rich burnt orange between wide stripes of taupe gray velvet. The closing is in front. Little to the right side, and a wide rever covers the right side of the front. The rever and sash end are embroidered in orange and gold, and a little of the embroidery shows on the narrow cuffs. A collar of embroidered linen finishes the neck.

Auto-Strip Razor Depot.

Nothing we have ever introduced in El Paso has given as much satisfaction as the Auto-Strip razor. This razor, from a scientific standpoint, is the best safety razor to date. Then, too, the cost is considerably less than is the case with other safety razors. The cost per shave is two mills, or five shaves for a cent. This is fully guaranteed by the makers. We have a 30 days' free trial proposition which we will be glad to have you come in and talk over with us.
